INTERNSHIP

Full-Stack Developer (Internship)

SevenMentor IT Training & Placements, PUNE

July 2025 - April 2026

- Hands-on experience building end-to-end applications using HTML, CSS, JavaScript, React, Java, and SQL, with a strong focus on clean and efficient coding.
 - Developed and tested full stack features, worked with both front-end and back-end tasks, and contributed to real project modules during internship.
 - Improved practical knowledge of web interfaces, API handling, database operations, and collaborative development while working on full stack tasks.
-

PROJECT

Laundry Management System | Jsp, Html, Css, Javascript, MySQL

- - Developed full-stack laundry booking web application using JSP, HTML, CSS, JavaScript, and MySQL
- - Designed MySQL database to manage users, services, and booking records
- - Built user & admin modules for service booking, status tracking, and service management
- - Implemented responsive UI with real-time booking status updates using JSP and database integration

Job Career Portal With AI Chatbot | Java, Spring Boot, STS, HTML, CSS, JavaScript, MySQL, OpenAI API

- - Built full-stack job portal for job seekers & recruiters using Spring Boot, MySQL
- - Integrated AI Chatbot via OpenAI API for job queries, resume tips, and 24/7 guidance
- - Developed user & admin modules: registration, job search/filter, applications, job posting
- - Implemented real-time application tracking and status management system
